

This guide will assist you with the configuration of your iOS device (iPhone/iPad) to connect to the MCTC-Student WiFi. If you should require assistance please visit the Help Desk located in room 108 of the main MCTC building.

To begin click the settings button from the home screen.

Confirm that Wi-Fi is turned on (if not simply tap Wi-Fi and slide the slider to ON).

If Wi-Fi is already on you may see the name of a Wi-Fi network already displayed, to view all available networks simply click the displayed name for a full list.

From this list choose, MCTC WiFi by tapping its name on the screen.

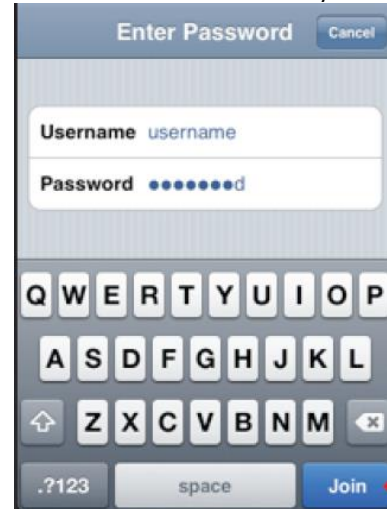

# MCTC- WiFi Setup Guide

iPhone/iPad

You will then be prompted for your MCTCNet username and password. This is the same username and password that you would use to login to a computer on campus.

After typing your username and password click the **Join** button in the lower right of the screen.

When joining **MCTC WiFi** a dialog box requesting that you “accept” the server certificate will display. **Click ACCEPT.**

You will then be returned to Wi-Fi Networks screen.

Simply click the HOME button and begin browsing.

Setup is complete.
