

# Exercise Science CP

Career & Technical Division

## Program Description:

The Exercise Science Certificate Program will provide the skills necessary to become a Certified Personal Trainer in conjunction with obtaining pre-requisite coursework required for advancement in other Allied Health Associate Degree Programs. Students obtaining the Certificate will be prepared for direct employment within a Health club or Fitness Center or for individual private pay consultation.

## Career Outlook:

Employment of fitness trainers and instructors is expected to grow by 24 percent from 2010 to 2020, faster than the average for all occupations. As businesses and insurance organizations continue to recognize the benefits of health and fitness programs for their employees, incentives to join gyms or other fitness facilities will increase the need for workers in these areas.

## Salary Forecast:

For the most current salary information please refer to the Bureau of Labor Statistics "Occupational Outlook Handbook" found at [www.bls.gov/ooh/](http://www.bls.gov/ooh/).
