

# Pharmacy Technician CP

Career & Technical Division

## Program Description:

Pharmacy technicians are currently in very high demand and this demand is expected to continue through at least 2018. As pharmacies expand patient care services, the role of and need for pharmacy technicians will also expand. Pharmacy Technicians are highly skilled individuals who play a critical role in pharmacies. They assist Pharmacists with day-to-day operations so that Pharmacists can spend the time they need to provide quality counseling and care to their patients.

Pharmacy technicians who work in retail or mail-order pharmacies have varying responsibilities, depending on State rules and regulations. Technicians receive written prescriptions or requests for prescription refills from patients. They also may receive prescriptions sent electronically from the doctor's office. To prepare the prescription, technicians must retrieve, count, pour, weigh, measure, and sometimes mix the medication. Technicians may establish and maintain patient profiles, prepare insurance claim forms, and stock and take inventory of prescription and over-the-counter medications.

In hospitals, nursing homes, and assisted-living facilities, technicians have added responsibilities. They read patient charts and prepare and deliver the medicine to patients. The pharmacist must check the order before it is delivered to the patient. The technician then copies the information about the prescribed medication onto the patient's profile.

With the appropriate amount of training and experience, pharmacy technicians may be promoted to supervisory roles, may seek specialization (e.g. oncology, nuclear pharmacy), or may pursue further education and training to become a pharmacist. Some technicians gain specialized skills in sterile products admixture, pharmacy automation, and health information systems.

The Pharmacy Technician Certificate Degree includes a total of 30 credit hours. Successful completion of the PHT program will include a clinical internship at an affiliated health-care and retail facility. Many states required licensure in order to perform pharmacy technician work. The West Virginia Board of Pharmacy currently requires licensure of all pharmacy technicians. Beginning July 1, 2015, newly hired technicians in West Virginia must be nationally certified. Upon completion of the PHT program, graduates will be eligible to sit for the national board examination. For more information about West Virginia requirements and the national certification exam please visit, [www.wvbop.com](http://www.wvbop.com) and [www.ptcb.org](http://www.ptcb.org).

## Career Outlook:

According to the [Bureau of Labor and Statistics](http://www.bls.gov) (BLS), employment of pharmacy technicians is expected to increase by 32% from 2010 to 2020. The BLS also suggests that pharmacy technicians with formal education or training, previous work experience, and national certification will be specifically sought after to meet these demands.

## Admission Requirements:

Students must submit an application for this program as it is selective admission. Students must also have:

1. A 2.5 GPA from the institution or previously enrolled or high school diploma or GED
2. A minimum ACT Math score of 19 or COMPASS Algebra score of 36 or Accuplacer score of 85
3. A minimum ACT English score of 18 or COMPASS English score of 71 or Accuplacer score of 5
4. A minimum Reading Accuplacer score of 79

## Additional Requirements:

- In order to graduate from the Certificate PHT program, students must maintain a minimum grade of "C" or better in all PHT courses. They will be allowed to repeat the course one time before dismissal from the program
- Proof of medical insurance coverage is required for internship
- Prior to internship, students must submit proof of Tuberculosis testing and Hepatitis B vaccination, or sign a waiver refusing vaccination
- The cost of tuberculosis testing, vaccinations, and background checks are the responsibility of the student
- Students are responsible for room and board, as well as transportation during clinical internship
- Convicted felons or Misdemeanor Drug Charges are not eligible for this program
