Program Mission Statement

The Management Technology, Dual Degree in Accounting, cultivates a student-oriented learning environment that emphasizes excellence in teaching and a curriculum that is designed to prepare students for pursuit of a baccalaureate accounting degree, and prepare them for a career in accounting.

STATEMENT OF INTENDED OUTCOME 1

Graduates of the Management Technology-Dual Degree in Accounting program will be pursuing an advanced degree, employed in the field, or a related field,

STATEMENT OF INTENDED OUTCOME 2

Graduates of the Management Technology – Dual Degree in Accounting program will demonstrate skills and knowledge required for success in obtaining an advanced degree in accounting, and/or working in their field or a related field.

STATEMENT OF INTENDED OUTCOME 3

Graduates of the Management Technology – Dual Degree in Accounting program will be satisfied that the program's curriculum has prepared them for an advanced degree in accounting, and/or employment in field.

STATEMENT OF INTENDED OUTCOME 4

General Education Outcomes

- Communicate effectively using written and oral skills.
- Apply mathematics and basic scientific concepts for problem solving activities.
- Utilize technology competently.
- Use critical thinking skills.
- Develop an awareness of ethical behavior.
- Recognize the richness of diversity.

IE/OA 4. ASSESSMENT MEASURES

Program – Degree or Certificate

Management Technology – Dual Degree in Accounting

Team Members

Richard Brown and Gerald Doyle

Date

February 4, 2004

* For each Outcome assessment measure, designate the assessment result/level that indicates

- Student learning has exceeded standards
- Student learning has met standards
- Student learning is below standards

Statement of Intended Outcome 1

Graduates of the Management Technology - Dual Degree in Accounting program will be employed in the field, a related field, or be pursuing an advanced degree.

Assessment Measure #1

Student learning will exceed standards when more than 60 percent of the responding graduates of the Management Technology - Dual Degree in Accounting program, who are not pursuing an advanced degree, report employment in the field, or a related field, on the Graduating Student Survey administered six months after graduation.

Student learning will meet standards when 60 percent of the responding graduates of the Management Technology - Dual Degree in Accounting program, who are not pursuing an advanced degree, report employment in the field, or a related field, on the Graduating Student Survey administered six months after graduation.

Student learning will be below standards when less than 60 percent of the responding graduates of the Management Technology - Dual Degree in Accounting program, who are not pursuing an advanced degree, report employment in the field, or a related field, on the Graduating Student Survey administered six months after graduation.

Assessment Measure #2

Student learning will exceed standards when more than 60 percent of the responding graduates of the Management Technology - Dual Degree in Accounting program, who are not pursuing employment in the field or a related field, report they are pursuing an advanced degree on the Graduating Student Survey administered six months after graduation.

Student learning will meet standards when 60 percent of the responding graduates of the Management Technology - Dual Degree in Accounting program, who are not pursuing employment in the field or a related field, report they are pursuing an advanced degree on the Graduating Student Survey administered six months after graduation.

Student learning will be below standards when less than 60 percent of the responding graduates of the Management Technology - Dual Degree in Accounting program, who are not pursuing employment in the field or a related field, report they are pursuing an advanced degree on the Graduating Student Survey administered six months after graduation.

Assessment Measure #3

Statement of Intended Outcome 2 Graduates of the Management Technology - Dual Degree in Accounting program will demonstrate skills and knowledge required for success in their field or a related field.

Assessment Measure #1

Student learning has exceeded standards when more than 70 percent of them pass all courses with a designator of AC and ACC with a grade of "C" or better.

Student learning has met standards when at least 70 percent of them pass all courses with a designator of AC and ACC with a grade of "C" or better.

Student learning is below standards when less than 70 percent of them pass all courses with a designator of AC and ACC with a grade of "C" or better.

Assessment Measure #2

Student learning has exceeded standards when more than 70 percent of them pass the capstone course (MG 296) with a grade of "C" or better.

Student learning has met standards when at least 70 percent of them pass the capstone course (MG 296) with a grade of "C" or better.

Student learning is below standards when less than 70 percent of them pass the capstone course (MG 296) with a grade of "C" or better.

Assessment Measure #3

Student learning has exceeded standards when more than 70 percent of employers surveyed are satisfied with student's skill levels.

Student learning has met standards when at least 70 percent of employers surveyed are satisfied with student's skill levels.

Student learning is below standards when less than 70 percent of employers surveyed are satisfied with student's skill levels.

Statement of Intended Outcome 3 Graduates of the Management Technology - Dual Degree in Accounting program will be satisfied that the program's curriculum has prepared them for employment in field, a related field, or has enhanced their skills if they are already working in field.

Assessment Measure #1

Student learning has exceeded standards when Student Survey results indicate that more than 70 percent of students indicate satisfaction with the program's curriculum.

Student learning has met standards when Student Survey results indicate that 70 percent of students indicate satisfaction with the program's curriculum.

Student learning is below standards when Student Survey results indicate that less than 70 percent of students indicate satisfaction with the program's curriculum.

Assessment Measure #2

Student learning has exceeded standards when student evaluations of accounting faculty results in an average score of less than two.

Student learning has met standards when student evaluations of accounting faculty results in an average score equal to two.

Student learning is below standards when student evaluations of accounting faculty results in an average score of greater than two.

Assessment Measure #3

Statement of Intended Outcome 4

General Education Outcomes

- Communicate effectively using written and oral skills.
- Apply mathematics and basic scientific concepts for problem solving activities.
- Utilize technology competently.
- Use critical thinking skills.
- Develop an awareness of ethical behavior.
- Recognize the richness of diversity.

Assessment Measure #1

Student learning has exceeded standards when WorkKeys Assessment exams' results indicate that more than 70 percent of students attained required levels of competency in reading and applied mathematics for the field of study.

Student learning has met standards when WorkKeys Assessment exams' results indicate that 70 percent of students attained required levels of competency in reading and applied mathematics for the field of study.

Student learning is below standards when WorkKeys Assessment exams' results indicate that less than 70 percent of students attained required levels of competency in reading and applied mathematics for the field of study.

Assessment Measure #2

Assessment Measure #3

Marshall Community & Technical College

IE/OA 6. OUTCOMES ASSESSMENT TOOLS (FEEDBACK LOOP)

Management Technology-Dual Degree in Accounting

An Outcomes Assessment Plan should be in accord with the College's Mission Statement, the Division's Mission Statement, and the Program's intended outcomes. Ongoing Assessment Techniques should assess the effects of the program and its services upon campus students and the workforce:

Marshall Community and Technical College Mission Statement

Marshall Community and Technical College is a comprehensive student-centered college focused on teaching and learning, and responsive to changing and diverse needs.

Operational Vision Statement

Marshall Community and Technical College will be learning centered, community-connected, & future focused. Marshall Community and Technical College strives to provide high-quality and relevant learning opportunities to meet the workforce, transfer, basic skills, and lifelong learning needs of the communities it serves.

Operational Values

In support of our vision and mission, Marshall Community and Technical College affirms the following values:

- Learner-based education
- Broad-based and community-based partnerships
- Excellence and accountability
- Continuous program improvement
- Results-oriented decision-making.

Program/Option/Unit Mission Statement

The Management Technology, Dual Degree in Business Accounting cultivates a student-oriented learning environment that emphasizes excellence in teaching and a curriculum that is designed to prepare student for pursuit of a baccalaureate accounting degree, and prepare them for a career in accounting.

Program Outcomes Upon completion of the program, <u>What must students know?</u>	Assessment Methods Used for Each Program Outcome	What standards or benchmarks (such as %) did you use?	How did you use the assessment results in program planning?	What dates were the assessment data reviewed and program/ curriculum revised?
<p>Graduates of the Management Technology-Dual degree Accounting program will be pursuing an advanced degree, employed in the field, or a related field.</p>	<p>More than 60% of responding graduates who are not pursuing an advanced degree report employment in field, or a related field on the Graduating Student survey administered six months after graduation.</p> <p>More than 60% of responding graduates who are not pursuing employment in the field or related field report they are pursuing an advanced degree on the Graduating Student survey administered six months after graduation.</p> <p>More than 70% of employers surveyed are satisfied with students' skill levels.</p>	<p>More than 60% of responding graduates who are not pursuing an advanced degree report employment in field, or a related field.</p> <p>More than 60% of responding graduates who are not pursuing employment in the field or related field report they are pursuing an advanced degree.</p> <p>More than 70% of employers surveyed are satisfied with students' skill levels.</p>		
<p>Graduates of the Management Technology-Dual Degree Accounting program will demonstrate skills and knowledge required for success in obtaining an advanced degree and/or working in the field or a related field.</p>	<p>Student performance in courses with AC or ACC designators.</p> <p>Student performance in capstone course.</p> <p>Employers satisfaction with skills of graduates.</p>	<p>More than 70% of students will pass all courses with AC or ACC designators with a grade of "C" or better.</p> <p>More than 70% of students will complete capstone course with a grade of "C" or better.</p> <p>More than 70% of employers surveyed are satisfied with students' skill levels.</p>
