

Program Description:

The Paramedic is an allied health professional whose primary focus is to provide advanced emergency medical care for critical and emergent patients who access the emergency medical system. This individual possesses the complex knowledge and skills necessary to provide patient care and transportation. Paramedics function as part of a comprehensive EMS response, under medical oversight. Paramedics perform interventions with the basic and advanced equipment typically found on an ambulance. The Paramedic is a link from the scene into the health care system. The student completing an Associate in Applied Science Paramedic Degree will complete in addition to the Paramedic courses, general education courses that will better prepare the student to enter the workforce and progress to competitive job markets and management positions. The Paramedic Science Associate Degree is an intense program designed for individuals involved in pursuing a career in the Emergency Medical Services field. The program consists of classroom lectures, practical labs and approximately 400 hours of clinical internships. Students will be eligible to sit for the National Registry of Emergency Medical Technicians Examination after the successful completion of the core courses for the level they will be testing, only if the student has maintained a letter grade of “C” or better in all EME/PAR courses and a “CR” in all clinical courses.

Career Outlook:

For the most current information please refer to the Bureau of Labor Statistics “Occupational Outlook Handbook” found at www.bls.gov/ooh/.

Salary Forecast:

For the most current salary information please refer to the Bureau of Labor Statistics “Occupational Outlook Handbook” found at www.bls.gov/ooh/.

Admission Requirements:

Students seeking admission into the Paramedic Science program should arrange an appointment with the program faculty to obtain current admission requirements. This is to ensure that students receiving up to date information regarding the program admission requirements and the criteria for selection.

Students must be EMT certified and maintain EMT certification as prerequisite for admission to and continuation in the program.

Students must successfully pass a criminal background and drug screen prior to placement in a clinical setting.

DEVELOPMENTAL COURSES REQUIRED

COURSE	REQUIREMENTS	SEM	HRS	GR	SUBSTITUTE/REPEAT CRS	SEM	CR
	Hours required for Graduation: 67						

¹ Students move through paramedic (EME/PAR) coursework in sequence, beginning with the Third Semester (Fall) coursework.
² Students must receive a letter grade of “C” or higher in “EME/PAR” courses to be eligible to be eligible for the National Registry Exam.
³ Students who hold a current National Registry AEMT certification and meet all General Education requirements may begin the program in the Spring (Fourth) semester.
⁴ Clinical Grades will be given on a Credit/Non-Credit basis. Students must earn a credit grade in all “EME/PAR” clinical courses to be eligible for the National Registry Exam.
⁵ Students who at any time during the program earn a letter grade below “C” in “EME/PAR” courses, or receive a non-credit in “EME/PAR” clinical courses will be dismissed from the program.
⁶ Students who are dismissed from the program may reapply the next time the program begins.
⁷ Students who are EMT certified may begin coursework during the third semester of the A.A.S. Degree Program. If a student has not completed BIOL 257 & 259 it must be taken during the Fall (Third) Semester.
⁸ ENL 111 has a prerequisite of ENL 095, or placement in 100 – level English. Students must complete ENL 111 with a "C" or better to graduate.

Our mission is to prepare students for careers, civic responsibility and life-long learning
