

Program Description:

The Associate in Applied Science degree program in Technical Studies is designed to meet the following needs: (1) to provide for cooperatively sponsored educational opportunities leading to associate degrees for employees/students participating in quality education and training programs sponsored by business, industry, labor, government or other educational agencies; (2) to provide a timely and efficient mechanism for community and technical colleges to deliver educational programs in a variety of occupational fields meet to employer needs; (3) to increase the abilities of employees to use technology effectively and responsibility; (4) to increase abilities of employees to communication information effectively through reading, writing, speaking, and listening; (5) to develop employee's abilities to solve problems through reasoning, information, retrieval, and productive teamwork; (6) to assist those employed in the workforce to understand that education is a life-long process.

Program Focus:

Business, industry, labor, and government organizations interested in furthering the education and training of their employees/members constitute the target audience of this degree program. By providing a program of study designed to enhance and maintain employee knowledge and skills, it is expected that such individuals will enjoy greater job security and job flexibility while providing employers with more highly skilled and educated workforce. For those just entering the job market, the program of study will include the education and training needed to assure basic entry level skills for the specific technical/occupational field.

Program Admission Requirements:

The college adheres to an open admission policy which means applicants with a high school diploma or a GED are eligible for admission. Applicants with neither a high school diploma nor a GED may be admitted on a conditional basis.
