

Fire Science Technology, CAS

Academic Year 2024-2025

Work Force Division

Program Description:

This 30-credit hour certificate program is designed to prepare students for entry into the fire service. This program will give students an in-depth understanding of fire service

Program Outcomes:

Upon completion of this program students will be able to:

- Explain the history and basic principles of the fire service
- Identify the primary responsibilities of personnel in the varied roles in the fire service
- Communicate and utilize interpersonal skills with supervisors, peers, and the public
- Explain the principles of fire development, cause and prevention.
- Describe the impact of the types of building construction as it relates to fire behavior
- Prepare students to sit for the FIRE 101 and 102 NFPA 1001 and 1403 certifications required for all firefighters in the state of West Virginia.

Career Outlook and Salary forecast:

For the most current information please refer to the Bureau of Labor Statistics “Occupational Outlook Handbook” found at www.bls.gov/ooh/.

Program Admission Requirements:

Students will be scheduled to complete a background check and a pre-employment drug screening prior to beginning classes. Students who have been convicted of a felony or fail the drug screening are not eligible to participate in this program. Random drug screenings are a condition of continued employment.
