

General Studies/Transfer Studies, AA

Academic Year 2024-2025

Program Description:

An Associate of Arts degree in General Studies/Transfer Studies can establish the foundation for a lifetime of continual learning and serve as the framework for a productive professional and personal life. This degree is ideal for the student who is planning to earn a baccalaureate degree at a four-year institution. Students will work closely with their advisor to choose courses that meet the needs of their chosen career path and goals.

The AA degree gives emphasis to practical skills in communication and computation which may lead to employment; however, the goal is to provide the student with a broad background in communication, fine arts, humanities, social sciences, science and mathematics that will prepare the student to enter a baccalaureate program at the junior level. The AA degree may be obtained in person, online or a combination of both.

Career Outlook:

Many businesses and industries seek well-rounded employees whose maturity level along with communication, computation, and decision-making skills are a step above those of traditional high school graduates. The Associate in Arts Degree provides graduates with enhanced knowledge and work skills without requiring the larger commitment of time or money necessary for a bachelor's degree.

Program Outcomes:

- Compose coherent, unified written documents that demonstrate correct mechanics and style, as well as appropriate documentation of sources
- Communicate verbal and nonverbal messages appropriate to the audience and situation
- Use appropriate evidence and sound reasoning to make judgement
- Demonstrate an understanding of the complexity of elements important to members of another culture in relation to its history, values, politics, communication styles, economy, or beliefs and practices
- Apply mathematical reasoning to solve quantitative problems
