

General Studies/Transfer Studies

Associate of Science, AS

Academic Year 2025-2026

Program Description:

An Associate of Science degree in General Studies/Transfer Studies can establish the foundation for a lifetime of continual learning and serve as the framework for a productive professional and personal life. This degree is ideal for the student who is planning to earn a baccalaureate degree at a four- year institution primarily focusing in math and/or science. Students will work closely with their advisor to choose courses that meet the needs of their chosen career path and goals.

Program Outcomes:

- Apply basic principles of the natural sciences, including the scientific method
- Apply numerical reasoning skills to solve problems
- Conduct basic research using electronic and traditional sources
- Communicate coherently summarized information that has been correctly synthesized and interpreted in oral and written formats
- Summarize and apply major psychological theories and concepts
- Analyze the influence of culture, institutions, and society from historical, political, and sociological perspectives
