Business Administration – Concentration

Academic Year 2026-2027

Program Description:

The Business Administration program is crafted to offer individuals a comprehensive understanding of the dynamic business environment. In a world characterized by rapid changes and increasing complexity in business practices, there is a pressing need for professionals equipped with knowledge and skills in various aspects of business administration, including finance, accounting, marketing, management information systems, strategy, and law.

Our two-year program is designed to provide students with a solid foundation in business principles, preparing them for a range of employment opportunities in diverse business settings. Whether aspiring to work in corporations, small businesses, or entrepreneurial ventures, graduates of this program are well-prepared to navigate the challenges and opportunities in the business world. Students can also transfer their credits and integrate into the third year of a related Bachelor's degree in business administration. This ensures a continuous and cohesive educational journey for those who aspire to further enhance their skills and knowledge in the field.

Career Outlook:

The Business Administration option provides an avenue for immediate employment and for advancement to upper levels of management. Employers seek graduates for positions ranging from business manager and sales representative to production supervisor and project planner. Graduates of the program obtain positions in manufacturing, retailing, construction, financial institutions, government and a host of other fields. Students also find this major to be of value in preparation for law school.

Salary Forecast:

For the most current salary information please refer to the Bureau of Labor Statistics "Occupational Outlook Handbook" found at www.bls.gov/ooh/.

Admission Requirements:

The college adheres to an open admissions policy which means applicants with a high school diploma or a GED are eligible for admission. Applicants with neither a high school diploma nor a GED may be admitted on a conditional basis.

Program Outcomes:

- Explain key business concepts such as accounting, finance, marketing, and management
- Analyze the impact of external factors on business operations
- Apply basic quantitative and qualitative methods in business decision-making
- Demonstrate effective communications, teamwork, and leadership in a business context
