Welding Skillset (SS99)

REQUIREMENTS		
WELD 115	Introduction to Welding	5
WELD 120	Shielded Metal Arc Welding (SMAW)	5
	TOTAL HOURS REQUIRED	10

The Welding Technology Program is an industry-driven, hands-on program that prepares individuals to meet the rigorous demands of the manufacturing sector. The welding program delivers skills that an individual needs to be successful in industry. This is accomplished through a hands-on approach and intensive student-instructor interaction. The best way to learn to weld is by actually welding. Therefore, the focus is on work done outside the traditional classroom and in a shop setting, providing the student with a true feel for the correct way to weld. A major subject is safety and this program teaches individuals how to protect themselves and their environment while completing the job.

This welding skillset stacks into the Welding Certificate of Applied Science (CAS) and the Associate of Applied Science (AAS) degree programs.
